

Huntington Solutions Announces Acquisition of TrimTec Systems

TrimTec Acquisition Expands Huntington's Product Offerings and Geographic Reach

Greer, SC – February 2, 2018 – Huntington Solutions, a leading provider of custom-engineered expanded polystyrene (EPS) and expanded polypropylene (EPP) molded foam solutions announced today that it has acquired TrimTec Systems, a central Ohio based specialized manufacturer of custom fabricated EPS and industrial packaging solutions.

"TrimTec is a great addition to the Huntington organization and will allow us to quickly expand the range of product offerings to our existing customer base while also further expanding our geographic reach in the midwest market." commented Ed Flynn, President of Huntington Solutions. "We are excited to welcome Jeff and his team to the Huntington organization and look forward to supporting their continued growth and expansion."

"We are very excited about this opportunity to be a part of the Huntington organization. They bring an exceptional culture that is committed to quality and customer service." said Jeff Wagner, Founder and President of TrimTec Systems. "We are eager to leverage the resources and expertise between the two companies."

"The TrimTec acquisition represents an important step in the evolution of Huntington Solutions." said Scott Martin, Executive Chairman of Huntington Solutions. "TrimTec's value-added engineering and design capabilities are a strong fit for the Huntington organization and further reinforce why leading OEMs rely on Huntington Solutions."

About Huntington Solutions

Headquartered in Greer, SC, Huntington Solutions is a leading provider of custom-engineered shape-molded and fabricated foam made from expanded polystyrene (EPS), expanded polypropylene (EPP) and other advanced resins. The company's four production facilities, strategically located in South Carolina, Michigan, and two in Mexico, specialize in the production and assembly of key components utilized in protective packaging, energy absorbing safety materials and temperature controlled containers.
